The StoreManager Point of Sale offers Cannabis Retailers the ability to meet and/or exceed all of SLGA's requirements for reporting and control of Cannabis sales. Chase McKay Retail Systems has been submitting files electronically to Sask. Finance for First Nations stores for years providing us with the experience to efficiently fulfill all the business requirements of the new cannabis retail stores.

1. Manual/Electronic File submission capabilities if mandated in the future
2. Federal Government Form (as per RFP) created within the system reports
3. Qty and \$ amounts recorded for all sales regardless of category
4. Apple Pay/Samsung Pay/Tap on credit card support (with optional integrated credit card module)
5. Text Overlay (recording all sales) from each point of sale terminal to digital camera surveillance systems.
6. CVS reporting capabilities with over the web updates to accommodate any reporting changes required in the future
7. Complete customer transaction history
8. Complete perpetual inventory with purchase orders (back order capability)
9. Inventory reports indicating costs/retail for any period for submission to governments
10. 8 Tax levels for reporting and remitting tax's
11. Unlimited departmental/class/group reporting
12. Tracking/reporting of recalls/waste/destruction for any period for any item
13. Unit of measure tracking and selling based upon weight
14. Weighted inventory levels with scale interface
15. 5 price levels of pricing with average cost/% markup/cost averaging
16. Separate warehouse/store floor inventory levels
17. Mobile unit for receiving/purchases/physical inventory
